

# MAGIC WE MAKE

Felisia Westberg's debut album *Magic We Make* is a jazz record with a hint of a melancholy that you can find in Swedish folk music. Her compositions come to life together with the quintet that consists of violin, tenor saxophone, guitar and drums. And behind the bass stands the composer, who also on a few songs captivates the listener with her soulful voice.

Felisia Westberg is a versatile musician that with a little help from her great love for music moves seamlessly between the reggae festival, the sweaty pop venue, and the jazzclub. She's played together with musicians such as Ale Möller, Ane Brun, Mariam Wallentin, and the psychedelic folk music duo Siri Karlsson, and she lets this wide range of musical input influence her compositions.

FW5 is a quintet that started in 2016 and have since then performed a number of concerts in Sweden, and *Magic We Make* is their first album that will be released on Havtorn Records the 16 October 2020.

Felisia Westberg - double bass, vocal

Andreas Pettersson - drums

Johan Ekeberg - guitar

Terese Lien Evenstad - violin
